Accomplished Senior Software Developer with 12 years of experience leading projects by acting as architect, developer and programmer analyst. Proficient in supporting project deliverables and maintaining releases. Strong leader in guiding support teams and solving complex issues. Steadfast in planning and implementing effective development strategies based on industry best practices. Multi-faceted Software Developer knowledgeable in HTML, JavaScript and Python. True team player offering 7 years of experience in software development. Complex problem-solver with analytical and driven mindset. Dedicated to achieving demanding development objectives according to tight schedules while producing impeccable code.

Work History

2022-12 -

Current

Senior Software Developer

Excel Software and Systems, Mumbai

- Developed databases, programs and processes for integration and implementation across enterprise.
- Trained new developers and programmers on company standards for design and review.
- Monitored ongoing operation of assigned programs and responded to problems by diagnosing and correcting logic and coding errors.
- Provided technical support using knowledge of complex technology to solve problems and support new projects.
- Met with stakeholders to provide detailed project reports and milestone updates.
- Consulted with engineering team members to determine system loads and develop improvement plans.
- Coordinated efficient large-scale software deployments.
- Collaborated with fellow engineers to evaluate software and hardware interfaces.

Competencies

User requirements analysis

User documentation

Code validation

Cost savings

Software Development Life Cycle

Testing

Subject matter expertise

Architecture oversight

System integration

- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.
- Adjusted design parameters to incorporate new features.
- Revised, modularized and updated old code bases to modern development standards, reducing operating costs, and improving functionality.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.
- Discussed issues with team members to provide resolution and apply best practices.
- Participated in software field testing to verify performance of developed projects.
- Designed customized solutions for proposals to potential customers.
- Updated old code bases to modern development standards, improving functionality.
- Integrated constructive programs into cohesive product.
- Developed software for desktop and mobile operating systems.
- Designed reusable and reliable code for use within distributed cloud environments.
- Designed intuitive graphical user interfaces to improve user experience.
- Architected data engineering pipelines to support machine learning performance.
- Led version control efforts for organization, employing public and open source repositories.
- Translated customer requirements into written use cases.

2022-09 -
2023-11

Android Application Developer and Web Designer

Webeduz Infotech, Mumbai

- Conducted scheduled system upgrades to maximize performance.
- Experienced working between numerous devices and versions of Android.
- Collaborated with multidisciplinary teams to design and implement new technology features.
- Designed new features for mobile apps to provide mobile functionality for brand features.
- Distributed high-quality, concise [Type] Android applications to clientele.
- Resolved system test and validation problems to provide normal program functioning.
- Guided team in layout modifications to improve functionality.
- Participated in design and planning exercises for future software rollouts.
- Wrote clear, concise code in Java and C#.
- Designed and tested [Type] applications for Android devices.

2012-12 -
2013-04

Android Developer

vegantaram The Blitz, Nashik

- Devised documentation for each app, detailing operation aspects, functions, capabilities and features.
- Designed user interfaces that engaged multiple senses and produced immersive experiences.
- Maintained comprehensive knowledge of mobile development cycle and addressed challenges arising in each phase.
- Managed aspects of Android app lifecycle from research and planning through deployment and post-launch support.
- Consistently used Android SDK to produce highly effective and nuanced content.
- Created custom mobile applications using native technologies.

Education

2011-06 - 2013-07	Masters in Computer Science: Computer Science <i>Pune University - Pune</i>
2008-05 - 2011-06	Bachelor of Computer Science: Mathematics And Computer Science <i>Pune University - Loni</i>
2006-05 - 2008-06	Higher Secondary School <i>Maharashtra State Board Of Higher Secondary - Pravara Nagar</i>
2005-06 - 2006-07	Secondary School <i>Maharashtra State Board Of Secondary - Aurangabad</i>

Cooking,Watching movies,exploring the worlds beauty

I love cooking delicious and healthy food for my Family.
I would love to watch movies
I have explored singapore, indonesia, Malaysia, Kerala 's beauty and still willing to visit many more creations.

PROJECT PROFILE

FOR VEGANTARAM

Project : 1
Title : Chit chat Messenger
Team Size : 2
Duration : December 2011 to May 2012
Front end : Java
Role : Tester, Developer
Description : It is a MSC(comp.sci) First Year's project. It is an Internet chat program which can support connections from an unlimited No of users with features like text conferencing and whiteboard drawing.

Project : 2
Title : Invoice PDF
Team Size : 2
Duration : December 2012 to January 2013
Language : Android
Role : Tester, Developer
Description : It is MSC(comp.sci.) Second Year's project during IT training. It is mobile application which performs saes transactions easily. And key feature of this application is that invoice is generated in PDF form.

Project : 3
Title : Media Privacy
Team Size : 2
Duration : January 2013 to February 2013
Language : Android
Role : Developer, Tester
Description : It is a MSC(comp.sci.) Second Year's project during IT training. This mobile application is design to provide security and privacy for our phone's gallery.

Project : 4
Title : BackMeUp
Team size : 2
Duration : February 2013 to March 2013
Language : Android
Role : Developer, Tester
Description : It is a MSC (comp.sci.) Second Year's project during IT training. This mobile application is design to provide restoring facility for call logs, contacts and messages of our cell phone.

Project : 5
Title : Image scanner
Team Size : 1
Duration : March 2013 to April 2013

Language : Android
Role : Developer, Tester
Description : This mobile application can perform operations like scanning images or documents, cropping and generating PDF for multiple images.

FREELANCING :

Project : 6
Title : Share Market Application
Team Size : 5
Duration : January 2016 to July 2016 .
Front end : Android
Role : Tester, Developer
Description : This is advance application made for users convenience as it's provide buy or sell signals of any share or Nifty n banknifty trading. In this application using screener , money control n trading view for signals. Updated Rest APIs n dependencies are used to fetch NSE n BSE data.

For T4U INSTITUTE

Project : 7
Title : Online classes
Team Size : 2
Duration : March 2018 to August 2018 .
Front end : Android
Role : Tester, Developer
Description : This application is made for T4U online teaching institute through which Online classes can provide to students through video conferencing n also can access class wise chapters of all boards in pdf format. It also supports whiteboard drawing n all mathematical tools like graph mapping n calculator etc etc. Android is used for this application n SQL database for storing students data n syllabus in pdf form.

Project : 8
Title : Students Management System
Team Size : 1
Duration : February 2019 to March 2019 .
Front end : Python
Role : Tester, Developer
Description : This is small Python project for students which connects python to SQL database. This project keeps the results records for students and stores it in database

FOR WEBEDUZ INFOTECH:

Project : 9
Title : Superstar Genius Babies
Team Size : 1
Duration : September 2022 to Till now

Front end : Android
Role : Tester, Developer
Description : It is recent application on which m working.It is an application for 1 to 3 years old baby n theirs mummy which helps parents to find out babies interests n hobbies. This application giving daily activities to kids in supervision of mummies n storing their records in database. SQLite used for back-end. Updated API's n libraries are used to fetch online data. This application is helping babies for their overall physical n mental development without creating pressure on them. All recent techniques are used in this application to make it user friendly n supportive to any device efficiently.

Project : 10
Title : WifiHotel
Team Size : 1
Duration : September 2022 to September End.
Front end : HTML CSS
Role : Developer
Description : This is website developed n design for one Hotel in Nainital. It's a dynamic websites developed using HTML CSS. Admin panel is provided in this website for every updation of information. Also viewers can view n book online rooms.

Project : 11
Title : Ecommerce website
Team Size : 3
Duration : October 2022 to Mid October .
Front end : Laravel PHP
Role : Developer
Description : This website is developed using advanced technologies of Laravel PHP. By this website users can buy various electric vehicles n can invest their money on getting good interest n offers on next purchase.

EXCEL SOFTWARES AND SYSTEMS:

Project : 12
Title : Starget +
Front end : Android Java
Role : Developer
Description : Application is MR reporting software with transaction DCR,leave encasement, Expense generation,Staff Management,Stocks Management, graphical representation of transaction data

Project : 13
Title : Starget M
Front end : Android Java
Role : Developer

Description : Application provides management functioning facility to approving authority to manage data , analyse transaction and provide approval in system.

Project : 14

Title : WMS

Front end : Android Java

Role : Developer

Description : This application helps to keep the record of Goods receipt , put away ,picking and transfer.also identifying goods bin number with the help of QR code scanner.
